

## Scribble Cubes

Art Curriculum - 3D Design

### Learning Objective

Children will learn how their 2D designs can translate into 3D designs by folding a 2D element into a 3 dimensional cube!

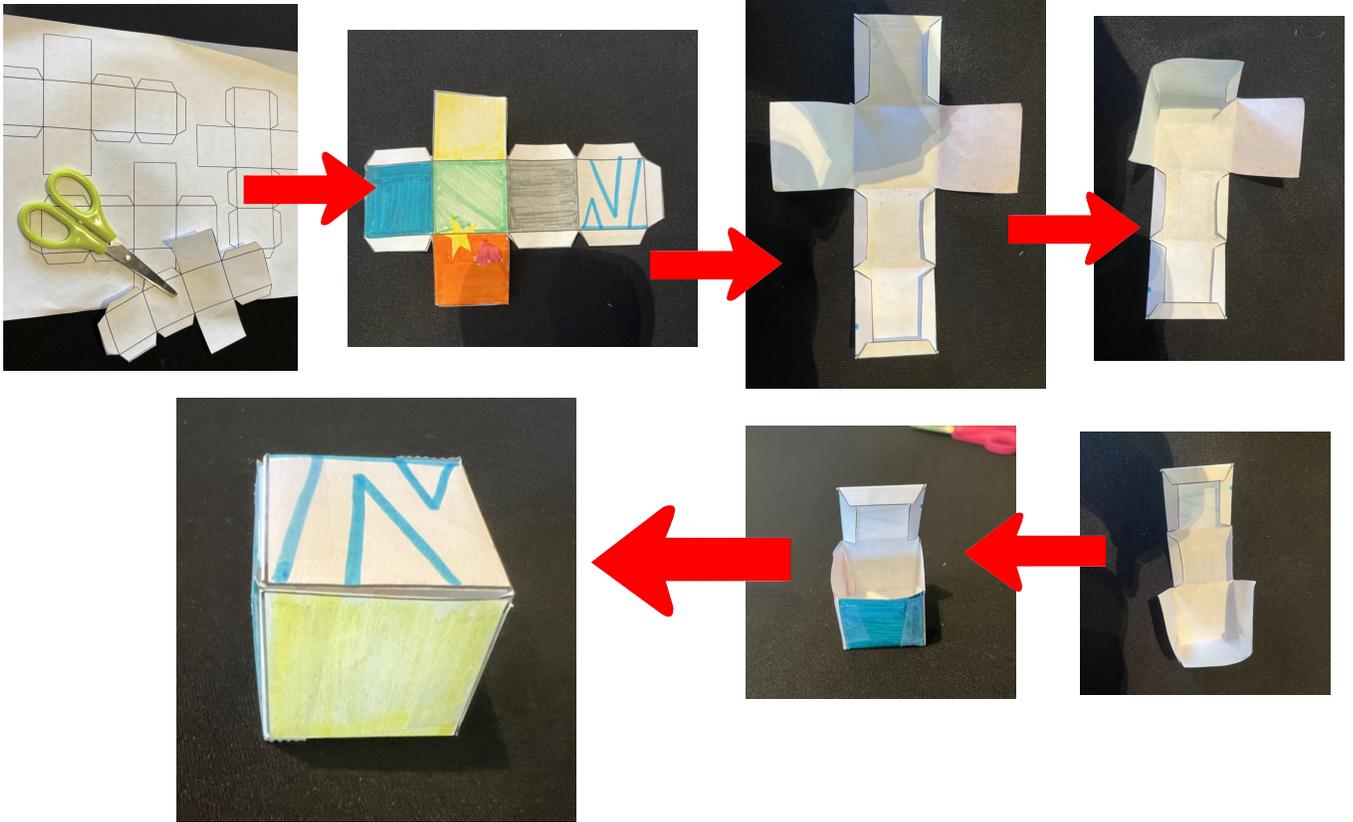

### Materials Needed

- Cube template printed on paper
- Markers, Pens, Sharpies
- Any other design materials of your choice!

## Scribble Cubes

Art Curriculum - 3D Design

### Demo with Steps:

### Activity Procedure

1. Print and cut out template from paper
2. Color and design your cube however you'd like
3. Fold along the lines and glue or tape your cube together
4. Make multiple cubes and connect different sides together!
