

# Halloween Scribble Cubes

*Art Curriculum - 3D Design*

## Learning Objective

Children will learn how their 2D designs can translate into 3D designs by folding a 2D element into a 3 dimensional cube with a spooky twist!

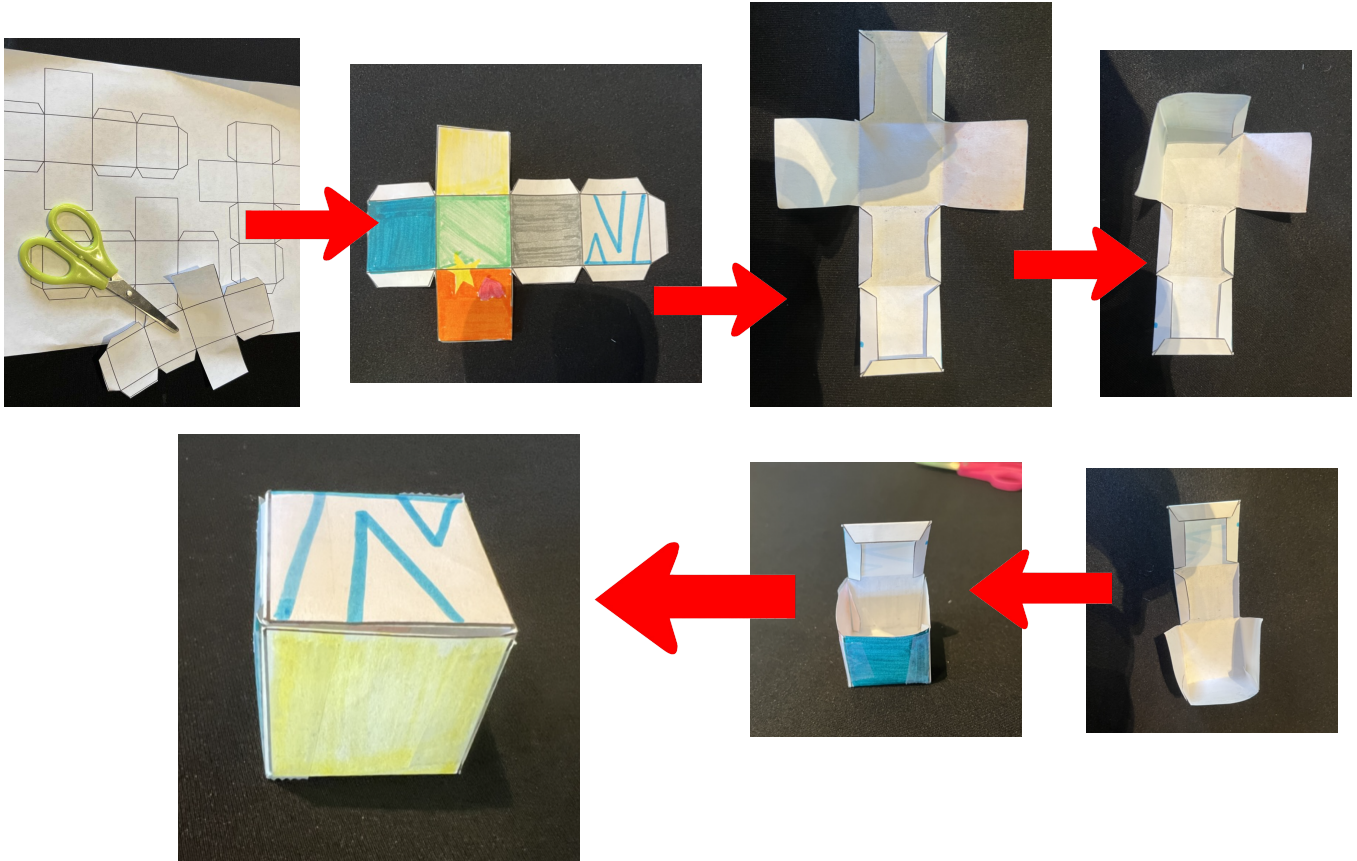

## Materials Needed

- Cube template printed on paper
- Markers, Pens, Sharpies
- Any other design materials of your choice!

# Halloween Scribble Cubes

Art Curriculum - 3D Design

## Demo with Steps:

## Activity Procedure

1. Print and cut out template from paper
2. Color and design your cube with any spooky
3. Fold along the lines and glue or tape your cube together
  - a. Use the leftover paper and get creative! Cut it into legs, arms, antennas, or a tail to turn your cube into a spooky creature.
  - b. To make the stem of the pumpkin, cut out a strip of paper, color it, cut slits into it, and roll it up into a stem.
